

## Release Notes for Version 7.0.6359

| App  | Feature       | Type                         | Comments  | Settings/Required Changes  |
|------|---------------|------------------------------|---|--|
| SPOT | Activity Log  | Addition to Existing Feature | <b><i>As a SPOT user I would like Warn if Already Racked to leave an activity log entry</i></b><br>The Warn If Already Racked setting will now leave an activity log entry when the warning is displayed.           | Store > Racking Settings > Warn If Already Racked  |
| SPOT | Adjustments   | Fix                          | Fixed an error in HSL > Associate to Items when a manual item adjustment is present   |  |
| SPOT | AR            | Fix                          | Fixed a possible crash in the A/R multiple payments screen.   |  |
| SPOT | Configuration | Addition to Existing Feature | Added a Test Email Settings button to CustomerConnect Settings. This will only appear on newly created CustomerConnect profiles.  | Setup > Program Configuration > Company > CustomerConnect Settings > CustomerConnect Profiles > [Profile Name] > Settings > Configure Settings > Email > Test Email Settings |
| SPOT | Customer View | Fix                          | Customer phones with invalid phone masks were causing an error when attempting to save the customer.  |  |
| SPOT | Email         | Fix                          | Fix a problem where emails could be sent to unselected addresses when the customer has more than one email address.   |  |
| SPOT | General       | Fix                          | Fixed Prepay Kiosk Orders to be compatible with ConveyorClient LocalNameInRackLocation setting.   |  |
| SPOT | General       | Fix                          | Corrected the Enforce Minimum Quantity setting to affect multidimensional upcharges.  |  |
| SPOT | General       | Addition to Existing Feature | We miss you letter will now prompt to select store(s) before running.   |  |
| SPOT | General       | Fix                          | Fix problem preventing Revenue Per Delivery report from displaying  |  |
| SPOT | General       | Addition to Existing Feature | Fixed problem where an invoice created from a quote was not printed. Added a setting controlling whether or not to shift to Prepay after creating an invoice from a quote.  | Company > Mark-in Settings > Transition to prepay after quote  |
| SPOT | Home Page     | Addition to Existing Feature | <b><i>As a SPOT Support Tech, I would like the About screen to list COM port information.</i></b><br>Help > About now displays full information about available serial ports and what SPOT settings reference them. |  |
| SPOT | Localities    | Addition to Existing Feature | <b><i>As an upcoming SPOT user in the Netherlands, I would like the Netherlands added to the list of SPOT localities</i></b><br>The Netherlands has been added to the localities in SPOT.                           |  |
| SPOT | Mapping       | Fix                          | Telogis mapping for Canada was not optimizing route stops or doing driving directions   |  |
| SPOT | Markin        | Fix                          | SPOT was crashing in UK when attempting to mark in orders from route customers that had signed up or requested a pickup through CustomerConnect.  |  |
| SPOT | Pricing       | Fix                          | Fixed a problem where the Minimum Order Service Charge  |  |

|                |            |                              |  |  |
|----------------|------------|------------------------------|--|--|
|                |            |                              | adjustment could be negative.  |  |
| SPOT           | Production | Addition to Existing Feature | <b>As a SPOT User I would like the Production Commitment grid to have a totals line</b><br>Added a Totals line to the Production Commitment grid on the SPOT Home Page.  |  |
| SPOT           | Reports    | Fix                          | FIXED - The Email Address Updates report was no longer pulling any data after a change to add an explicit Activity Log Entry for customer email modifications. The report has been updated to use the new activity right.  |  |
| SPOT           | Reports    | Fix                          | Fixed a problem that prevented transferred invoices from appearing in the Restoration reports.   |  |
| SPOT           | Reports    | Change                       | ADDED/CHANGED - The Route Stop Profitability report only displayed totals for orders that were posted to an A/R account. This report has been removed from the default SPOT collection of reports, and has been replaced with "Route Stop Profitability - Incoming" and "Route Stop Profitability - Outgoing". These reports will properly total all sales based on the desired reference point. |  |
| SPOT           | Reports    | Change                       | <b>As a SPOT User I would like We Miss You Letter to prompt for store selection before generating letters</b><br>"We Miss You Letter" now prompts for which stores' customers to include   |  |
| SPOT           | Reports    | Change                       | <b>As a SPOT Route operator I would like Route Stop Profitability to work for Non-A/R customers</b><br>Route Stop Profitability reports now include support for Non-A/R customers  |  |
| SPOT           | Reports    | Fix                          | Fixed possible error message when running CustomersByGroup report  |  |
| SPOT           | Rewards    | Fix                          | Fixed a bug when changing a customer's rewards profile in non-USA localities.  |  |
| SPOT           | Routes     | Fix                          | Fixed a problem where adding a customer from a web request with the Require Route Signup setting enabled will create part of the route addition twice.   |  |
| SPOT           | Routes     | Fix                          | Fixed error when synchronizing routes immediately upon adding a new customer group.  |  |
| SPOT           | Search     | Fix                          | Fixed a problem with Full Length Phone Lookup setting that forced the user to reopen the search screen after mistyping a phone number.   |  |
| SPOT           | SMS        | Change                       | <b>As a SPOT user, I would like to see a character count when composing SMS messages</b><br>Send SMS shows character count.  |  |
| Conveyor Kiosk | General    | Fix                          | Fixed a scenario with SPOT.Kiosk that prevents vestibule door from opening until reset   |  |
| Conveyor Kiosk | General    | New Feature                  | <b>As a SPOT.Kiosk user I would like to be able to customize CSS styles and still receive updates</b>  |  |

|                 |         |                              |   |  |
|-----------------|---------|------------------------------|---|--|
|                 |         |                              | Add support for a Pages\custom.css file so that SPOT.Kiosk sites can have visuals customized without causing difficulties when updating.  |  |
| Conveyor Kiosk  | General | Change                       | <b><i>As a kiosk owner I do not want pickup slips to include the customer's address and phone number</i></b><br>Kiosk pickup slips no longer include the customer's address and phone number. |  |
| CustomerConnect | General | Fix                          | Facebook login was not working in CustomerConnect.  |  |
| CustomerConnect | General | Addition to Existing Feature | A "Google Adword Conversion ID" setting has been added to CustomerConnect Settings > General section.   |  |
| Data Exports    | General | Fix                          | Invoice detail section was sometimes timing out in Data Export Service A.   |  |
