Release Notes for Version 7.0.7868

App	Feature	Type	Comments	Settings/Required Changes
SPOT	Credit Cards	Fix	Fix - Clearent Token updater needs to return the card type short version, not the full card type.	
SPOT	Credit Cards	Fix	Fixed - Credit Card Transactions/Recon is only loading data for the workstation - this needs to load for all in the MID.	
SPOT	Credit Cards	Change	Updated CTPaiement security protocols (TLS 1.2)	
SPOT	Credit Cards	Fix	CC Reset Encryption will repair the broken tokens from the auto-updater	
SPOT	Customer View	Fix	Fixed a problem where Customer View allowed entering a larger AR Credit Limit than the database can store, which resulted in failing to save the customer.	
SPOT	Home Page	Change	***As a SPOT user, I would like to have a wider/larger logo image on the home screen*** Home screen logos may now be either 130x75 pixels or 185x80 pixels in size.	
SPOT	Markin	Fix	Fixed a problem where the Describe & Price Conveyor Context setting was not effective	
SPOT	Pickup	Fix	Fixed a problem where the preferred tender type was not always pre-selected for pickup when Force Scan is enabled.	
SPOT	Printing	Fix	Fixed customer info slips not printing the phone number. Existing templates will need to be modified to use the Phone data field instead of PhoneFormatted.	
SPOT	Reports	Fix	FIXED - The Daily Report was not sorting top customers in order of sales volume.	
SPOT	Reports	Addition to Existing Feature	***As a SPOT user, I would like the 'Cash Received' report to use archive data*** Cash Received report now supports archive data.	
SPOT	Reports	Fix	Fixed a problem where SPOT Query Builder based reports that need a date range would not run.	
SPOT	Rewards	Fix	Fixed a problem that prevented extending a reward coupon's expiration date.	
SPOT	Rewards	Change	***As a SPOT user, I would like the 'Prompt for Unclaimed Reward' feature to avoid printing if the reward is already expired*** Prompt for Unclaimed Reward will no longer offer to reprint expired unclaimed rewards. It will, however, notify about them on the first pickup after they expired.	
SPOT	Routes	Fix	Fixed - Save Customer - Erases addresses in on-demand requests	
SPOT	Routes	Addition to Existing Feature	***As a SPOT user, I want to see customer notes entered in route pickup request using MDC Mobile and CustomerConnect during the Detail process.*** Pickup request instructions will now be displayed at markin, either when the user enters the markin screen, finishes the markin session, or both. A "Route Pickup Instructions Viewed"	Store Settings > Route Settings > Display Pickup Request Instructions at Markin

			Activity Log entry will be saved whenever a clerk views pickup instructions.	
SPOT	SMS	Fix	**As a SPOT/OTS user, I would like to batch orders into a single SMS in the SMS presentation type** Add a check to not send multiple copies of a message to a customer when using SMS report presentations.	
MDC Mobile	General	Addition to Existing Feature	Mobile push notifications now support the @FIRSTNAME token in the push template	
MDC Mobile	General	Change	**As an MDC Mobile user, I would like to require a valid method of payment to use the 'On My Way' feature** Added check of payment status on the OnMyWay screen	
MDC Mobile	General	Fix	Fixed loading of barcode on the kiosk screen	
MDC Mobile	General	Fix	Fixed crash with zero number of features in the intro	
MDC Mobile	General	New Feature	**As an MDC user, I would like to utilize locker functionality** Added Locker integration to MDC Mobile	
RouteTrac Client	General	Fix	Change Photo loading API.	
RouteTrac Client	General	Fix	Android - Fixed Image chooser	
RouteTrac Client	General	Change	**As a RouteTrac Mobile user, I would like a warning about delivering to a customer without A/R, CCOF, or Cash Credit and post as PNP if delivered** Checking the customer payment status and show a warning about delivering to a customer without A/R, CCOF, or Cash Credit and post as PNP if delivered	
RouteTrac Manager	General	Change	Changed login method, added additional device info	
SPOT Scheduler	General	Addition to Existing Feature	**As a SPOT user, I would like to use separate email or SMS templates upon delivery of a route order or a locker order.** An "Order Delivered SMS" task type has been added to SPOT Scheduler Service. Also, the existing "Order Delivered Email" task type now supports "Route" and "Locker" customer groups.
