

## Release Notes for 7.0.13212

| App                          | Feature       | Type                         | Comments   | Settings/Required Changes   |
|------------------------------|---------------|------------------------------|--|---|
| SPOT                         | Email         | Addition to Existing Feature | Customers with subscription plans can now be automatically emailed and/or sent an SMS message when their subscription is used up for the current period.   | Company Settings > Subscription Settings > Subscription Plans > (Subscription Plan) > Plan Levels > (Plan Level) > Used Up Email Template |
| SPOT                         | Pickup        | Fix                          | When a customer picked up orders with a tender type that adds a surcharge, other orders that had been prepaid with another non-surcharged tender were getting the tender surcharge applied anyway. |   |
| SPOT                         | Reports       | Fix                          | The "Period Sales By Service By Department" report was failing if very large percentage increases/decreases had happened between the prior and current periods                                     |   |
| SPOT                         | Reports       | Addition to Existing Feature | Reports that offer an option to compare periods (such as the "Period Sales" report) now have the ability to do a "day over day" custom date range as well as "date over date".                     |   |
| SPOT                         | Rewards       | Addition to Existing Feature | Added "Coupon Redemption Postback URL" setting. This is the URL the customer will be redirected to after a Click to Redeem coupon link is clicked.   | Store Settings > Customer Rewards Settings > Coupon Redemption Postback URL   |
| SPOT                         | SMS           | Addition to Existing Feature | Customers with subscription plans can now be automatically emailed and/or sent an SMS message when their subscription is used up for the current period.   | Company Settings > Subscription Settings > Subscription Plans > (Subscription Plan) > Plan Levels > (Plan Level) > Used Up SMS Template   |
| Subscription Renewal Service | General       | Addition to Existing Feature | Subscription plans can now have a duration of one year.  |   |
| SPOT                         | Customer View | Fix                          | Users were unable to create a customer callback for a date after 12/31/2020  |   |
| SPOT                         | General       | Fix                          | File Manager was reporting "no valid client volumes" and terminating in RDS environments   |   |
