				Stores Settings > Email Settings > Split Invoice > Message Template Stores Settings > Email Settings > Split Invoice > Delayed Items - Message Template Stores Settings > Email Settings > Statement Invoices > Message Template Stores Settings > Email Settings > Pickup Not Paid Message > Message Template
SPOT	General	Addition to Existing Feature	SPOT now can attach a PDF invoice instead of embedding a visual invoice in an email.	Store Settings > Email Settings > Emailed Invoice Format
SPOT	Localities	Addition to Existing Feature	Monaco has been added as a locality in SPOT	
SPOT	Merchandise	Fix	Fixed an error when splitting payment on a merchandise order in a local that uses Euro currency.	
SPOT	Pickup	Fix	Subscriptions purchased through the Merchandise button in the Order Pickup screen were not getting properly activated.	
SPOT	Rewards	Fix	FIXED - It was possible for a customer to have more than one assignment to the same Frequent Buyer program.	
SPOT	SMS	Fix	Replies from customers who had received a declined CCOF alert SMS were showing up in the Notification Center as coming from an "(Unknown)" customer.	
SPOT	Subscriptions	Addition to Existing Feature	Support for subscription-related email tokens has been added to SPOT.	<p>Tokens supported:</p> <p>@SUBSCRIPTIONITEMALLOWANCE @SUBSCRIPTIONITEMSUSED @SUBSCRIPTIONITEMSREMAINING @SUBSCRIPTIONRENEWALDATE @SUBSCRIPTIONPLANNAME @SUBSCRIPTIONPLANDescription @SUBSCRIPTIONLEVELNAME @SUBSCRIPTIONLEVELPRICE @SUBSCRIPTIONLEVELDESCRIPTION</p>
SPOT	AR	Fix	Customers pointing to non-existent stores were having their credit card charged at statement creation time if all (existing) stores were selected in the Statement Wizard.	
SPOT	Coupons	Addition to Existing Feature	A coupon can now be configured not to combine with any other coupon, without having to choose the specific coupons that it cannot combine with.	Company Settings > Mark-in Settings > Coupons > (Coupon) > Cannot Combine - All Coupons
SPOT	Coupons	Fix	"Click To Redeem" coupon was not auto-applying any time after the first use	
SPOT	Production	Addition to Existing Feature	The advanced Production Commitment detail screen now shows an item's alteration count next to the piece count.	
SPOT	Security	Fix	Users could be mistakenly redirected to Users, Groups, Rights instead of Location information.	
OTS	General	Fix	OTS Click-to-redeem coupons were expiring before they were supposed to.
